WWS REPORT 2016-2017

1. Selection of Mentees

After the completion of the UG admission in August, the selection of students to WWS from various departments was conducted on. The students were asked to prepare a small write up on their ambition and biodata. An interview was conducted and the rank list was published. The interview panel consisted of Dr. Rajesh, IQAC Coordinator, Prof. Najila T Y, Head of the Dept. of English, and Prof. Nisab T., WWS coordinator. From the published rank list thirty students were selected from first year. New students were accommodated in the vacancies of discontinued students from the previous year rank list.

3.2 Internal Mentoring Sessions

The bio-data of the mentees were collected and filed. All the mentors met their mentees weekly. The mentoring activities were conducted as per mentor's and mentees's convenience. All the mentors assigned specific tasks to their mentees based on the mentees' aptitude and interest. Some of the tasks were SWOT analysis, searching new scientific reports, group discussion on current affairs, finding informative sites in internet, article writing, debate, seminars, mock teaching etc. In the process of mentoring, family issues, academic issues, career options, personality problems, communication skills, strengths and weakness of the mentees were handled effectively. During the academic year 2016-2017, each internal mentor completed more than ten mentoring sessions. All the mentors assessed the progress of their mentees through interaction and exam result analysis. There were remarkable positive changes observed in mentees due to the mentoring process.

4. Mock Examination

Mock JAM exams were conducted on 8th February 2017 for students of Physics, Chemistry and Biology Science separately. Question papers were prepared by the experts. And the answer sheets were evaluated and the result was published.

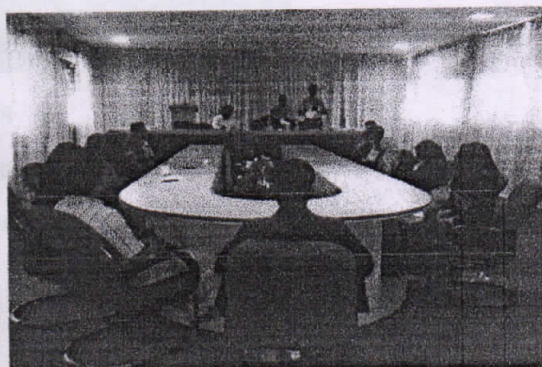

Mock CAT exam was conducted on 3rd March 2017 for students of various subjects. Question papers were prepared by a panel. And the answer sheets were scrutinized and the result was published.

5. Mock Interview

A Mock Interview was conducted for all WWS final year students on 28th February 2017. Notifications for various posts of Assistant Manager, Scientific Officer, Assistant Professor, and Assistant Co-ordinator in Social Media had been placed in the notice board on 20th February onwards and the applications were invited. After the scrutiny of applications, a number of students were selected for the interview. After the interview, a feedback session was arranged by the interview board members with the interviewed. And the rank list was published based on the score sheets prepared by the panel.

SCHOLAR SUPPORT PROGRAMME

ANNUAL REPORT (2016-17)

MES Keeveeyam COLLEGE, VALANCHERY

Scholar Support Programme started in our college in the year 2014-15. So this year it was implemented in all the UG classes. The coordinator attended a meeting convened by the Office of the New initiatives on 3rd August at MCC Calicut in which a detailed guidelines about the implementation of the programme was obtained. A monitoring committee was constituted consisting of IQAC coordinator, HOD's of various departments and Staff secretary. As per the instructions obtained in the meeting a faculty meeting was convened in the college on 11th August 2016 itself to discuss about the implementation of the programme for the year 2016-17. In the meeting it was decided to give a detailed orientation to the students regarding the programme. Accordingly a team consisting of IQAC co ordinator, SSP Coordinator and staff visited each class and conducted a detailed orientation among the first year students. 50 students from first year belonging to 5 departments were selected after closing the UG admission procedures. This year selection was made based on the Higher Secondary marks of the students and also the willingness of the students were asked considering the poor attendance in the previous years. The interested students were given preference. A slight change was made in the second semester student list (zoology) as some of the students who got admission in the spot admission process who had obtained very less marks in their higher secondary requested to be a part of the programme. Some who were already selected and who had very good marks for their plus two requested they need to want to continue and were replace by the new students Asna, Binsha Parveen, Reshma.C, Vrindha.A.P .Rest of the list remain the same. Total 150 students were selected from three year UG classes.

In the first week of September another Faculty meeting was convened in the presence of Principal & IQAC co-ordinator. In the meeting it was decided to start the classes of first year immediately. A faculty diary was distributed to the resource persons in which they can mark the attendance of the students of each class. In the month of November, SSP co ordinator attended the 2 day Capacity Building Workshop organized by the Office of the New Initiatives at SRC, Kozhikode. Students meeting were convened in middle of November itself to get a feed back of the classes and also the

stationary kits consisting of a note book, pen, pencil and a rubber were distributed to the students. Student co ordinators were also selected. The list is given below

Student co ordinators

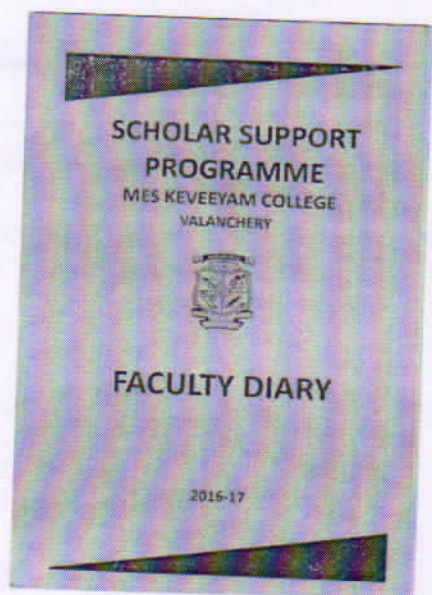

Year	Name	Department
First	Ashiqa Samsuddeen	Chemistry
Second	Sreevidya.P	Chemistry
Third	Mauprasad	Commerce

In the middle of the month of February another faculty & student meeting was called upon to discuss about the conduct of General mentoring sessions. General mentoring session was conducted as a one day workshop on 18th February 2017, Saturday. 3 sessions were handled by Sri. P. Hemapalan, HR Trainer, OISCA, Calicut. 2 sessions were handled by eminent career guidance expert MR. Jaleel, Career Guru, Calicut. All the sessions were very useful to the students. It was highly interactive. From the feedback collected from the students, they asked for more such sessions. A student meeting was convened in the middle of March again to get the feedback from the students in the presence of IQAC co ordinator. The suggestions from the students are all noted and will be considered in the future activities.

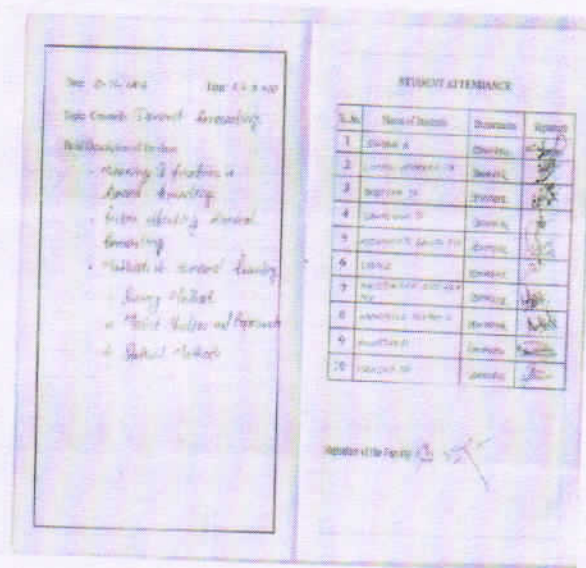

The activities of SSP were much different from that of the previous years. The faculty diary & book to collect the bio data of the students were given to the faculty. Examinations were conducted at the end of each semester to evaluate the progress of the students. Since the willingness was sought from the students and a very good awareness was given at the beginning itself, the problem of attendance shortage was not there this year. As usual stationary kits were distributed to the students. The study materials consisting of text books were purchased through the college cooperative store and were distributed to the students. A total amount of 2, 25,500/- received was effectively utilized this year for the conduct of the programme. The Principal, Co ordinator, Staff and students of the college are immensely obliged to the Office of the New Initiatives for their immense support and guidance.

FOCUS

(Fostering Competence among Undergraduate Students)

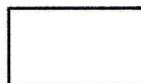

In the twenty-first century, a high quality post secondary education is the key to national competitiveness and individual success. However many have concerns about the career readiness of college students. To address this concern the IQAC of MES Keveeyam College initiated the FOCUS Programme in the college. The programme was inaugurated on 09-01-2018 by the Assistant Collector of Malappuram Mr. Arun. K. Vijayan, IAS in the college auditorium. The purpose of the program is to introduce participants to key competencies needed to perform in their functional areas and is meant to bridge the gap between workplace and post secondary education.

WWS REPORT 2018-2019

1. Selection of Mentees

After the sanction of the programme for the present academic year is granted by the New Initiatives Office, in the month of October 2018 itself the selection procedure of WWS mentees from various departments was conducted. The students were selected from the bio data that they had provided and on the basis of the performance in speech and Group Discussion. The interview panel consisted of IQAC Coordinator Dr. Rajesh, Dr. Sailaja, Prof. Najila T Y, Head of the department of English, and Prof. Reji A L, WWS Coordinator. From the published rank list thirty students were selected from first year. New students were accommodated in the vacancies of discontinued students from the previous year rank list.

4. MOCK EXAMINATION

Mock JAM exams for Physics, Chemistry, Zoology were conducted separately on 25th February 2019, 27th February 2019 and 23rd February 2019 respectively. Question papers were prepared by the experts and answer sheets were evaluated and the answers were discussed with the students. Chemistry JAM exam was conducted by Dr. Rajesh; Zoology by Jisha Krishnan and Physics by Dr. Nabeel Rashin.

Mock CAT exam was conducted on 27th February 2019 by Prof. Sini, department of Commerce and Mock TOEFEL exam was conducted by Prof. Najila T Y, HOD, department of English on the same day.

5. MOCK INTERVIEW

A Mock Interview was conducted for all WWS second year students on 27th February 2019. After collecting bio-data from students, a real interview situation was created by the experts.

Prof Santhakumari P. was the external expert in the panel. The other members were Dr. C. Rajesh, IQAC Coordinator and Najila T Y, HOD department of English. After the interview, a feedback session was arranged by the panel members with the students.

MOTIVATIONAL VISIT AND CAMP

MOTIVATIONAL VISIT AND MOTIVATIONAL CAMP REPORT

DAY ONE 13/02/2019 – Evening 5.30 pm

The motivational visit of Walk With Scholar headed towards Chennai on 14th February 2019 1st 5:45 Pm from our college, MES KVM College Valanchery. Our team included fellow walk with a scholar mentees, Dr. Rajesh (chemistry department), Reji A L (English department), Jisha Krishnan (Zoology department) and Sini (Commerce department). It was a group of thirty second year students and four teachers. The journey in the bus was utilised with effective session of Self introduction by all team members consisting of five or six members from a department. Everyone introduced themselves in their own special ways and answered questions followed. This question answering session helped to serve as an ice breaking session too along with nurturing one's speaking skills as well as questioning and answering skills.

DAY TWO

IIT CHENNAI -14/02/2019 Morning 10.00

The team reached Chennai at 8 30 am and kept their luggage in youth hostel, Chennai. After freshen up, the group had had their break fast. Then without delay, we headed towards our main destination, Chennai IIT. Indian Institute of Technology and reached their at 10.00. The campus amazed us with its vast area and the atmosphere inside it created a totally different world for the group. We saw bicycles all over for the travel of IIT students. Actually, we'll be motivated when we just see them letting the wind rush at their face riding on the bicycle. The group interacted with the research scholars of IIT about their efforts and hard work to reach here. The eco-friendly campus of the IIT with deers and monkeys here and there, gave a warm welcome to the team. It was nice to walk through the campus which seemed like some cleared forest or park. All of those huge trees, deers, monkeys, cycles and people added to the enchantment of the atmosphere. As the next session, the students' group interacted with Dr. Prasad, Coordinator of Research Cell in the department of chemistry, IIT. We were glad and proud at the same time to know this reputed IIT professor Who is a Malayali and raised from the same locality of our college, Valanchery. Talking to him thus created a special effect. He introduced his senior research fellows before us and asked them to guide us to see the equipments of Chemistry Lab. All the giant machines were enough to evoke a sense of curiosity in the students. We felt lucky to know about well defined instruments and their mechanisms from IIT itself. The guide explained everything to us in simple language without

making us bored. He never let us think he is not a Malayali. We got the opportunity to know about various instruments and their mechanisms like Fluorescence meter, High resonance mass spectrometer, UV and IR spectrometers, Thermo Gravimetro Analyzer etc.

We proceeded to our next visit after Lunch. It was to Physics department. We saw all of the magnificent technology they used in their labs. We were curious to be in low temperature Physics Lab. The group saw the production of liquid nitrogen and liquid helium. Even though everyone was not from science departments, we all felt that very interesting. The research scholars there demonstrated the coldness of liquid nitrogen very clearly. He pumped the liquid outside and it evaporated simultaneously when it came to room temperature. It was wonderful to see how leaf, rubber, balloon etc. interact with the liquid nitrogen. He explained how liquid helium was produced and why it can't be demonstrated like nitrogen. He was so friendly and he explained everything in a detailed clear manner. So, the students were very curious to ask more questions. They were lucky to interact with research scholars of IIT. The group were motivated when they realised that there were Malayalees there among the students of IIT. It was very fabulous to see devices like Raman's spectrometer. We lived this much not knowing all of these things really exist. It was enough to evoke scientific temper even to the arts students. After exploring the main departments, the students roamed in bus through the campus just to see the areas. The team said good bye to that world and travelled to Marina beach, India's longest beach. We can't leave Chennai without seeing this beach once. It was that much vast. All stood calmly under the stars and gifted our ears to the low mumbles of wind bearing waves. There we had the most memorable moments with friends when the waves washed away our legs and we walked to the tides holding hands, facing the wind. We returned after dinner with all those moments close to heart.

DAY THREE – Morning 15/02/2019 MUSEUM, CHENNAI

On the third day on 15th February 2019, we set off in excitement to visit national museum at Chennai. It is one of Chennai's greatest privileges. The buildings of the museum were historical and enchanting. They reminded us the palaces of ancient princes. We explored several blocks. The archeology department was informative about the different kingdoms of Chola, Chera, Pandya, Pallava and Mauryas and also interesting. The sculptures excavated from our lands told the story of human being. The curiosity to know about ancient civilizations was abound while seeing those perfectly crafted sculptures. The bronze gallery was decorated with the presence of deities. We were dazzled to see Natesha and Nataraja engraved in bronze. There were foreign tourists actively enquiring about all those bronze

figures. The paintings of Raja Ravi Varma attracted everyone with the originality and enchanting beauty. There were most of Ravi Varma's treasured collections and a lot of contemporary paintings in the art gallery. The students got the opportunity to know about several mediums of art like lithography, Oil painting etc. Science gallery and children's museum were equally amazing. The group saw Indian costumes, people etc there. Several plants were there blushing with brisk life. Spices, oils, perfumes, cosmetics... everything were there, and all of them served a wonderful feast to our eyes. The students experience the unity in diversity once more. The sight of musical instruments were mellifluous. Those ancient scriptures told several stories of untold past. They were mysterious and interesting. There were scripts like Brahmi which tend to sing the tales of past civilizations. The mysterious aura around all of them created a special atmosphere of wonders. We said good bye to that yard of sights in the satisfaction of a morning well spent.

DAY THREE – Afternoon 15/02/2019, LOYOLA COLLEGE, CHENNAI

The next destination in our journey was Loyola college. The team reached there after our lunch. The atmosphere of Loyola was specialized with unique buildings. The group received a very warm welcome in the executive conference hall by the vice principal and IQAC co-ordinator. They interacted with us in a very friendly manner. Vice principal talked us about the principles, aims, objectives and dignity of the institution. The concept of learning is associated with social service in their college. Their aim itself is to generate men and women effective and useful to society and evoke social commitment in students. The motto itself gave a special energy: "Let your light shine". The students learned more about 'Loyola culture' through his speech. He also answered patiently to their doubts. He explained more about admission procedures like entrance examinations and interviews to get selection there. As an answer to the students' question, he explained about 'Incubation centre' and young minds' creative centre, 'Research park' in Loyola. IQAC co-ordinator Dr. Xavier explained us about study skills: critical thinking, active reading, effective note taking and strengthened writing. He inspired us with the quote of APJ: "I am the best, I can do it, god is always with me, I am the winner, and today is my day." The group were served with tea and snacks after the sessions. The enthusiastic and energetic group of us stepped outside to see various departments. Merely walking through the alleys brought a positive energy. The group visited the renowned Life Science department and Zoology department. We listened to the lectures about various zoological instruments using the principles of polymerised chain reaction, High power thin layer chromatography, atomic absorbant spectroscopy etc. There

"Success never move away from you, unless you move away from it!" We talked a lot with Paul Raj sir, who is in-charge of research students. He is a very friendly and funny guy. More than a friendly talk, it was a transmission of cultures, and information transfer. He was our guide to show us the departments and the campus. We went to the fabulous church inside the campus. The architecture of the church is mind blowing. The whole group totally melted in that divine atmosphere. After that visit, we walked through the campus and saw library and several departments. We talked to malayali research scholars. They were very friendly and amazing. It was nice to know malayalis were here too.

END OF THE JOURNEY FOR THE BGRINNING OF A NEW ONE

Morning 16/02/2018

It was sad to say good bye to that peaceful atmosphere and positive energy. We finally said good bye to our last destination in the trip. We were all prepared to return back home. It was a long journey ahead. On the way we were sorted as five groups and given topics about role of youth in safe guarding national security, positive use of internet, improving the quality of institutions, social services, etc for Group Discussion. Each group presented their creative solutions after an active discussion with all of the credible details collected and ideas generated. Our group presented the ideas about role of youth in safeguarding national security. We took security in a wider aspect and explained deeper about it. After that session, everybody explained their feedbacks and experiences in the whole journey effectively. That was the last session in the journey. Everyone had gone to rest after that. After a night long journey, we reached our college at morning. We were in a special feel as if we are returning from a different world. We returned to our homes peacefully, bearing the thoughts of a long journey with a bunch of positive memories and motivation. Eventhough the students were exhausted of the journey outside, we had that spark of inspiration burning inside. On 16th February 2019 morning 9..00, the group reached in the college.

Career Counselling (2018-19)

Career decisions play a pivotal role in shaping the future of students. In today's environment of multiple options, knowing about choices available helps in decision-making. The session commenced with the College Principal, Captain Dr Abdul Hameed C reiterating the importance of knowing one's potential and subjects of interest before making a decision. He laid stress on the right combination of subjects as per their aptitude which should be reflected in their academic performance. He emphasized on the importance of making informed decisions. The resource person for the session was Dr. T O Poullose (Retd Professor, Rajagiri College of Social Science) an eminent career counsellor. He is a prolific educator who has been associated with counselling and guidance for the past many years, an educational consultant who draws upon vast experience to offer comprehensive services to students and parents regarding decision making for the future. The session aimed at making the audience aware of the multiple career options available. The session concluded with interaction with students and vote of thanks by coordinator Nisab T.
